Education

Carnegie Mellon University · Mountain View, CA
M.S. in Software Management; GPA: 3.9/4.0 — Aug 2026 – Dec 2027
Relevant Coursework: Product Management, Problem Discovery & Definition, AI Engineering, User Research

Boston University · Boston, MA
B.A. in Computer Science, B.S. in Advertising; GPA: 3.8/4.0 (Cum Laude) — Sep 2022 – May 2026
Relevant Coursework: Software Engineering, Full-Stack Development, Agile Development, AI, Algorithms, Marketing Strategy

Experience

Boston University AdLab (Student-Run Ad Agency) · Boston, MA
Director of Project Management — Jan 2026 – May 2026

- Coached 5 Project Managers overseeing 35+ team members across 5 client accounts through weekly 1:1s and feedback sessions, **strengthening prioritization** and **problem-solving skills** that earned all 5 PMs award nominations.
- Standardized reporting frameworks across **5 previously inconsistent accounts** and analyzed 60+ weekly reports, surfacing and **resolving all 6+ major scope, timeline, and team risks** before they impacted delivery.
- Built timeline-tracking systems across 5 accounts, aligning 15+ leaders across 5 departments to **resolve workflow conflicts** and negotiate deadline extensions, keeping all deliverables and 20 client presentations on schedule.

Project Manager — Sep 2025 – Dec 2025

- Led a 7-member cross-functional team with MarketBridge, **translating insights** from 22 surveys and 4 interviews on technician motivation into a **4-channel recruitment strategy** and 18 creative assets for LiftOne in 4 months.
- Managed project operations across **research, strategy, and creative workstreams** using Gantt charts, weekly meetings, and status reports, achieving **100% on-time delivery of all deliverables and presentations**.
- Led 3 rounds of client presentations, guiding selection of **a belonging-centered concept** over career- and balance-focused alternatives; named Most Efficient PM among 15 PMs by senior leadership and faculty.

Boston University Department of Computer Science · Boston, MA
Lead Teaching Assistant (Web Application Development) — Jan 2025 – May 2026

- Mentored 400+ students across 3 semesters in full-stack development (React, Next.js, MongoDB, Git/GitHub), **advising on architecture decisions** and debugging.
- Coached 80+ capstone teams across 3 semesters through weekly sprints and standups, **guiding teams from requirements to functional demos**, with **100% of teams shipping a working product** each semester.
- Refined lecture materials and grading rubrics for 5 of 18 mini-projects, **standardizing evaluation frameworks** and mentoring fellow TAs in defining their own course materials.

MYStudio · Cambridge, MA
Marketing Intern — Jul 2025 – Aug 2025

- Benchmarked 200+ digital accounts across 7 platforms into a media strategy handbook **adopted as onboarding guideline** across 10+ channels, **replacing broad content direction** with defined audiences, platform priorities, and mission-aligned messaging.
- Identified audience interests and developed 17 audience-informed posts across Instagram, LinkedIn, WeChat, and RedNote; the top-performing post earned 1.8K+ views, 100+ shares, and 10% follower growth within 24 hours.

Projects

FocusPet | Product Manager & Software Engineer — Oct 2025 – Dec 2025

- Conducted 5 user interviews, finding that all-or-nothing device blocking was counterproductive for students' real coursework needs; defined FocusPet as a desktop app combining **eye tracking, selective blocking, and gamified feedback**.
- Created prototypes and user flows; prioritized 4 of 7 proposed features, cutting keyboard tracking as a weak focus signal, and **delivered a functional MVP** for Windows and macOS as part of a 3-person Agile team.
- Presented iterations across 5+ review cycles with instructors and students; added a **pause feature** after feedback that ending a session felt too rigid, drawing **fewer clarifying questions** and **stronger student interest** over time.

DoorDash Quick Meal | Product Manager (Course Project) — Aug 2026 – Oct 2026

- Led a team of 5 to design **Quick Meal**, a DoorDash ordering flow for students in crunch periods, targeting 30% less time to order.
- Conducted 15 user interviews, identifying the core need was **low decision effort**; prioritized 4 of 9 student pain points and evaluated 3 concepts against **conversion, retention, and order frequency** before selecting Quick Meal.
- Scoped the MVP to **3 must-have features** using RICE and MoSCoW; planned a 3-phase roadmap gated on 9 acceptance criteria.

Skills

Product Management: User Research, Data Analysis, Product Strategy, Requirements Definition, Feature Prioritization, Product Roadmapping, Agile/Scrum, Stakeholder Alignment, Risk Management
Technical: Git/GitHub, JavaScript, TypeScript, Python, Java, SQL, HTML/CSS, React, React Native, Django
